PAWAN KUMAR

Full Stack Developer (MERN) | Java & DSA | Power BI Data Analyst

Bhopal, India • +91-9334294779 • pawanyadav05102005@gmail.com • LinkedIn • GitHub • LeetCode

PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience in Java, Data Structures and Algorithms (DSA), the MERN Stack (MongoDB, Express.js, React.js, Node.js), C Programming, and Power BI. Proven track record designing and delivering scalable, secure web applications and RESTful APIs, leading cross-functional development teams, and building interactive data-visualization dashboards. Strong foundation in Object-Oriented Programming (OOP), Database Management Systems (DBMS), and version control (Git/GitHub). Passionate about software engineering, problem-solving, and continuous learning.

TECHNICAL SKILLS

Programming Languages: Java, C, JavaScript, SQL
Web & Frameworks: HTML5, CSS3, React.js, Node.js, Express.js, REST APIs
Databases: MongoDB, SQL, DBMS
Data & Analytics: Power BI, Data Visualization, Data Analysis, KPI Reporting
Tools & Concepts: Git, GitHub, Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP), Agile Collaboration, Cloudinary

PROFESSIONAL EXPERIENCE

Software Developer Intern — Team Leader *Feb 2026 – Apr 2026*
Infosys Springboard (Virtual)

- Led a cross-functional team of 5 developers to design and build HireHelper, a full-stack MERN platform for task posting and service requests, delivering all milestones on schedule.
- Architected and implemented RESTful APIs for authentication, task management, and notifications, improving application functionality and reliability.
- Managed task allocation, sprint planning, and feature integration across the development lifecycle, diagnosing and resolving technical challenges to improve stability.

Data Analyst Intern *May 2026 – Jun 2026*
SAGE Summer School — Power BI

- Designed interactive Power BI dashboards to visualize and analyze business datasets, translating raw data into actionable insights.
- Built KPIs and automated reports that supported data-driven business decision-making for stakeholders.

PROJECTS

HireHelper – On-Demand Task Platform | MERN Stack *Feb 2026 – Apr 2026*

- Built a full-stack platform for task posting, service requests, and user management with secure, role-based authentication.
- Implemented REST APIs, real-time notifications, and role-based dashboards using MongoDB, Express.js, React.js, and Node.js.
- Led a team of 5 developers as Team Leader, delivering the project on schedule.

Wanderlust Stay – Airbnb Clone | MERN Stack *Aug 2025 – Feb 2026*

- Developed an Airbnb-style property rental platform with listings, authentication, reviews, and image uploads.
- Integrated Cloudinary for image management and map APIs to enhance property discovery and user experience.

iPhone Sales Analysis Dashboard | Power BI *Jun 2026*

- Built an interactive Power BI dashboard analyzing $769M+ in sales, 19K+ units sold, and 4K+ transactions.
- Created KPIs and visualizations to surface sales trends, product ratings, and payment-method distribution.

Weather App | React.js *Feb 2026 – Mar 2026*

- Developed a real-time weather application using third-party APIs and responsive React.js components.

Student Management System | C Programming *Mar 2025 – May 2025*

- Built a console-based system to manage student records and attendance using file handling in C.

AWARDS & CERTIFICATIONS

- Power BI Workshop Certificate — SAGE Summer School (2026)
- Software Developer Internship Certificate — Infosys Springboard (2026)

EDUCATION

B.Tech in Computer Science & Cyber Security Engineering *2023 – Present*
Sagar Institute of Research and Technology, Bhopal | CGPA: 7.3 / 10
